# We are committed to...

When Sabco decided to commit to a Reconciliation Action Plan (RAP) we committed to always improving our understanding of Aboriginal and Torres Strait Islander peoples, histories, cultures, teachings, beliefs and future prospects. These new learnings and appreciations now become a part of the Sabco story, a talking point that our employees can share with family and friends with the potential to shape thought and actions well beyond the scope of Sabco.

We will use this opportunity to learn and grow as a business and to encourage the entire team to use this knowledge in our wider relationships with our partners and customers. We believe that by understanding the rich history of the Aboriginal and Torres Strait Islander cultures, we can create a more dynamic, tolerant and connected workforce that can use this perspective to influence and create opportunity well beyond our own company.

We are committed to acting ethically and with integrity and transparency in all our business dealings. Specifically, we are committed to ensuring that we identify and eliminate, as far as is possible, modern slavery practices within our operations and supply chains. We recognise our responsibility to contribute to the elimination of modern slavery and that responding effectively to risks of modern slavery within our supply chains is a process of continuous improvement.

We always act with integrity – taking responsibility for our work, caring for our people, and staying focused on safety and sustainability.

Sabco is committed to environmental sustainability in our operations. We will achieve continuous improvement in our environmental performance by setting goals, measuring progress, and communicating results.

This holistic approach to sustainability is supported by globally recognised standards and goals such as the SDG (Sustainability Development Goals). SDG are a collection of 17 interlinked global goals designed to be a “blueprint” to achieve a better and more sustainable future for all.

# Our commitment to health care

- A culture that supports continuous improvement with a focus on delivering the highest cleaning standards.
- A national sales team, comprised of industry experts.
- QR code access to easy to follow videos and training materials to support team training, coupled with Sabco Professional “How to guides” that can be displayed on-site.
- On-site cleaning audits and training facilitated by our experienced team.
- National supply network to ensure uninterrupted supply, which is vital for all market segments.
- A comprehensive range of Sabco Professional products to compliment and improve the efficiency of the cleaning process.

# THE MICROFIBRE DIFFERENCE

## Why Microfibre?

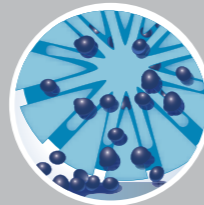

The innovative characteristic of microfibre is that it is extremely fine — up to 100 times finer than a human hair — allowing it to penetrate even the smallest cracks in the surface. The result is an in-depth cleaning action that removes the smallest forms of dirt and bacteria out of microscopic crevices.

## Effective with or without the use of chemicals!

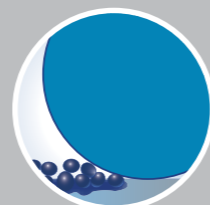

A key benefit of using Sabco Professional microfibre products, is their ability to remove most commonly found bacteria in healthcare environments.

### MICROFIBRE PRODUCTS GUARANTEE HIGH PERFORMANCE!

Each microfibre thread has wedge-shaped borders, collecting dust with a micro-abrasive action that traps and retains it in the fibre.

MICROFIBRE

TRADITIONAL FIBRE

## FLAT MOPPING

# DRY MOPPING

## FIRST STEP WHEN CLEANING ANY HOSPITAL FLOOR

Most of the dry dirt accumulated in hospital flooring needs to be removed before damp mopping. Skipping this first step reduces the effectiveness of damp mopping by converting the dust into dirt.

Sabco Professional Microfibre Disposable Dusting Pads are a cost-effective product made for this purpose.

### MICROFIBRE FLOOR DUSTING PAD 50 X 15CM

- Made of high quality microfibre
- Ideal for dusting before flat mopping
- Compatible with all hook & loop flat mop pads
- 100 Pack Roll

EXTRA HOOK & LOOP DOTS to fix mopping pads

### LIGHTWEIGHT FLAT MOP SYSTEM

#### SABC-1402 ERGONOMIC HANDLE

- Sold separately or as a kit
- Premium Telescopic Handle
- Simple To Use - Helps to reduce back pain
- Adjustable height - From 870mm to 1500mm

#### SABC-1343 40 CM ALUMINIUM FLAT MOP BASE

- Suitable for non-threaded 22 mm handles

# DAMP MOPPING

## AFTER ALL DUST AND LOOSE MATERIAL HAS BEEN EFFICIENTLY REMOVED

Sabco Professional disposable or washable microfibre pads efficiently remove dirt and bacteria with the use of chemicals or just with water.

Sabco Professional microfibre pads will cover up to 30 sq metres of flooring when pre-dosed or more when used with a water fed pole.

### Complete range of flat mop pads, designed to compliment the showcased damp flat mopping solution.

Each tailored for specific applications, with detailed specifications provided in the following pages.

PUSH BUTTON to release water

NON-SLIP SOFT SPONGE for more comfortable grip

HANDLE LENGTH : 1450 mm

HOLDS UP TO 580 ML OF WATER

WATER FED POLE

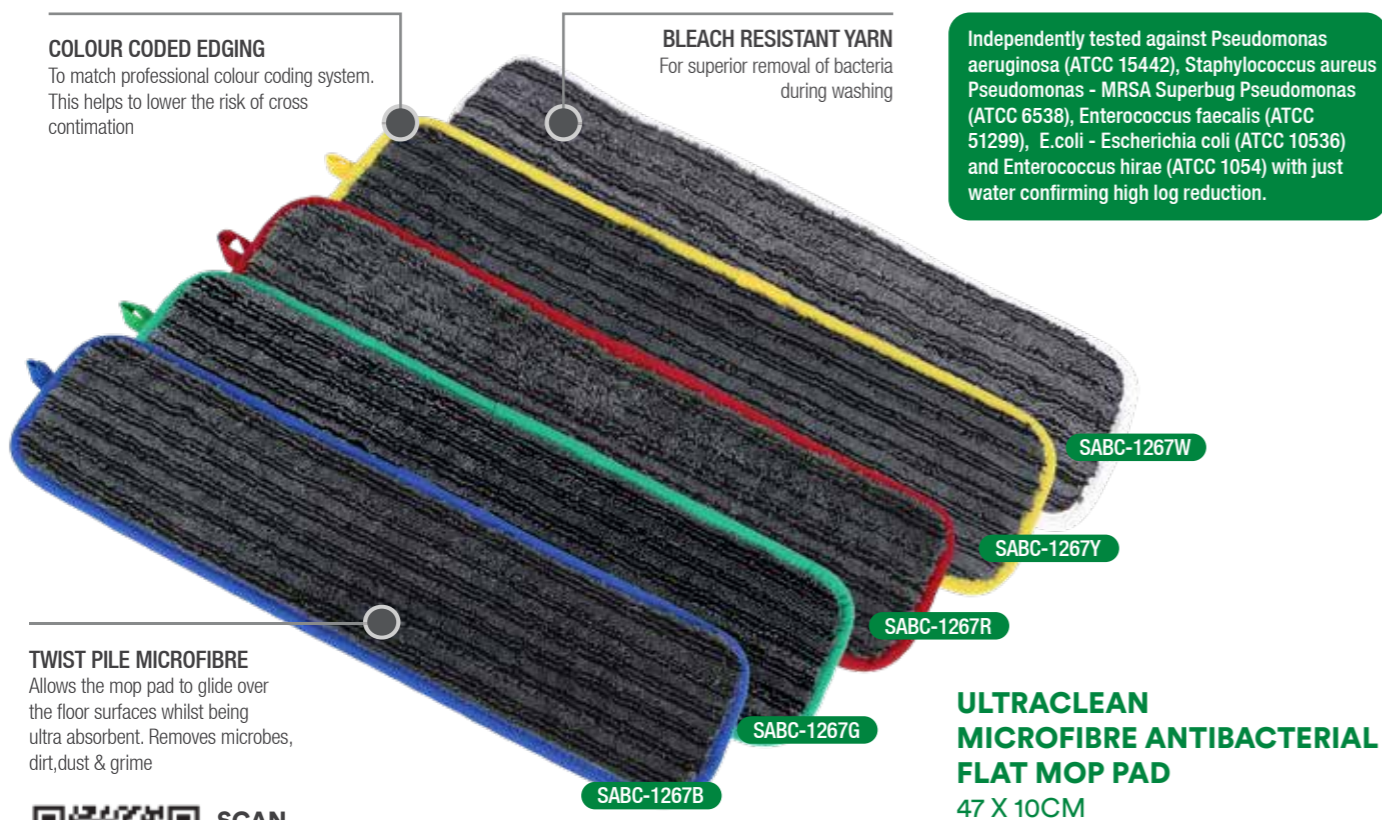

WATER RELEASE

EXTRA HOOK & LOOP DOTS to fix mopping pads

How Australia cleans

# ULTRACLEAN MICROFIBRE FLAT MOP PADS

### COLOUR CODED EDGING

To match professional colour coding system. This helps to lower the risk of cross contamination

### BLEACH RESISTANT YARN

For superior removal of bacteria during washing

Independently tested against *Pseudomonas aeruginosa* (ATCC 15442), *Staphylococcus aureus*, *Pseudomonas - MRSA Superbug Pseudomonas* (ATCC 6538), *Enterococcus faecalis* (ATCC 51299), *E.coli - Escherichia coli* (ATCC 10536) and *Enterococcus hirae* (ATCC 1054) with just water confirming high log reduction.

### TWIST PILE MICROFIBRE

Allows the mop pad to glide over the floor surfaces whilst being ultra absorbent. Removes microbes, dirt, dust & grime

### ULTRACLEAN MICROFIBRE ANTIBACTERIAL FLAT MOP PAD

47 X 10CM

- Machine washable up to 90 degrees & 500 times
- Tumble dry safe for up to 54 degrees
- Up to 30m sq coverage
- Use with just water or chemicals

# SURFACE CLEANING

## TOUCH POINTS

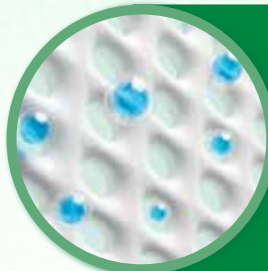

A key aspect of cleaning. Touch points can be infectious and contagious and need special attention when cleaning.

Sabco Professional microfibre cloths' absorbency and bacteria removal ensures a high log reduction.

## COLOUR CODING

Disposable or washable, the Sabco Professional range of cloths are colour coded to avoid cross contamination.

## GREAT ABSORPTION WITH MINIMAL LINTING

Made with high quality microfibre, all Sabco Professional cloths will ensure high absorbency and cleaning performance. In addition, Sabco Professional disposable cloths have been specifically designed for healthcare environments. They are convenient to use, minimal lint and suitable for vinyl surfaces such as patient mattresses.

# WASHABLE CLOTHS

EXTRA THICK

ULTRA CLEAN PREMIUM ALL PURPOSE MICROFIBRE CLOTHS  
5PK - 40 X 40CM

ALL PURPOSE MICROFIBRE CLOTHS  
50PK - 40 X 40CM

## INSTRUCTIONS FOR CLOTH PREPARATION

Cloths should be stacked in the bucket of the same colour by folding them in quarters, and stacking them horizontally in the bucket (shown in the diagrams above). Prepare the solution (50mls per cloth) in another bucket and pour over cloths in the relative bucket.
